Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to the following patentably distinct species of the claimed invention: Species 1 as viewed in Figure 1, Species 2 as viewed in Figure, Species 3 as viewed in Figure 3, Species 4 as viewed in Figure 4, Species 5 as viewed in Figure 5, Species 6 as viewed in Figures 6 & 11, Species 7 as viewed in Figure 7, Species 8 as viewed in Figure 8, Species 9 as viewed in Figure 9, Species 10 as viewed in Figure 10, and Species 11 as viewed in Figure 14.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

2. Upon election of one of Species 1-11, applicant is further required under 35 U.S.C. 121 to elect one of the following disclosed species:

A. The embodiment where the seed fixing film is a dissolvable type.

B. The embodiment where the seed fixing film is an undissolvable type.

3. Upon election of embodiments A or B applicant is further required under 35 U.S.C. 121 to elect one of the following disclosed species:

a. The embodiment where the plants growing device is pressed to form a band so as to be bound as a roll for storing (as viewed in Figures 12A & 13A).

Art Unit: 3644

b. The embodiment where the plants growing device is pressed to form a band so as to be folded as computer form paper (as viewed in Figures 12B & 13B).

4. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

5. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

6. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
